## **Understand Grade Level Goals for High School Students and Ensure Your Child Is on Target for Graduation**

MPS school counselors are hosting meetings for parents/guardians and families with high school students. The meetings will cover college and career readiness activities for each grade level.

Information will be shared so parents learn key terms, understand the options available, discover resources and programs for their child, and are clear on the requirements and deadlines at each grade level for on-time graduation. Attendees will receive the updated graduation requirements and have the opportunity to ask questions.

Mark your calendar and plan to attend these meetings!
